Concentrated Concrete Cleaner

Durável ECP is a concentrated cleaner and profiler for concrete surfaces. It is made with detergents, degreasers, and acids that help clean and prepare concrete before applying overlays, stains, or coatings.

Durável ECP is safer to use than muriatic acid and will not harm most plants or aquatic life when used as directed.

Using Durável ECP can help save labor because the concrete does not need to be neutralized before applying decorative products.

Typical Uses:

- **Interior And Exterior Concrete**
- **Driveways, Walks, And Patios**
- **Entrances And Store Fronts**
- **Porches And Balconies**

Product Advantages :

- **Safer Than Muriatic Acids**
- **Clean And Profile In A Single Step**
- **Saves Labor Cost**
- **Pleasant Odor**
- **Concentrated Formula**

Concentrated, dilute with water
Mix ratio varies by application
Coverage Rate 250 to 300 sf per diluted gallon

Application Temperature
above freezing to 90 F

VOC Content
< 10 g/L

Packaging:
1-Gallon Jugs | 5-Gallon Pails

Coverage:

Usage will vary with application. Typically, one gallon of dilted product will clean and profile 250 to 300 square feet of concrete.

Directions for Use:

Mixing Instructions:

Durável ECP is concentrated and should be diluted with water before use. Measure the water and Durável ECP before mixing.

Always add Durável ECP to the water. This helps reduce splashing and lowers the risk of injury.

Replace container lids after each use.

For typical surface preparation, mix 1 part Durável ECP with 2 parts water. For general cleaning, use more water. For more aggressive cleaning, use less water.

Always test in a hidden area first to make sure the cleaning process does not damage the surface.

FOR PROFESSIONAL USE ONLY

Dilution Ratio Suggestions, Water:ECP – (always dampen surface prior to application)

Straight	Difficult stains
2:1	Standard preparation for interior and exterior surfaces
3:1	Precast or recently poured concrete for surface latents
4:1	General cleaning or prior to re-seal

Application Instructions:

Durável ECP reacts with concrete. Removing loose dirt and surface contaminants before using ECP will help it clean more effectively.

Exterior Surfaces: Remove dirt and contaminants with a pressure washer fitted with a zero-degree rotating turbo tip nozzle. If the concrete is dry, lightly dampen it with water first. Continue wetting the surface as needed during cleaning. Apply the diluted ECP with a pump-up sprayer or trigger sprayer onto the damp concrete. While the surface is still wet, scrub the liquid with a push broom or brush. Rinse the surface thoroughly with a pressure washer fitted with a fan tip. Do not allow ECP to dry on the surface before rinsing. Protect nearby areas from overspray as needed. See product warnings for use around metals.

Interior Surfaces: Remove dirt and contaminants using the proper cleaning method for the job. If the concrete is dry, lightly dampen it with water first. Continue wetting the surface as needed during cleaning. Apply the diluted ECP with a pump-up sprayer or trigger sprayer onto the damp concrete.

While the surface is still wet, scrub with a push broom, brush, rotary floor scrubber, or auto scrubber. Use plenty of water to rinse the floor thoroughly. Remove rinse water with floor squeegees, a wet-dry vacuum, or an auto scrubber. Do not allow ECP to dry on the surface before rinsing. Protect nearby areas as needed.

ECP and Metal:

Do not use Durável ECP on metal surfaces, especially aluminum.

If ECP is applied to aluminum, especially aluminum foil, it may produce flammable hydrogen gas.

ECP may damage stainless steel, galvanized metal, or magnesium.

Copper and brass may become brighter after contact with ECP, but they must be rinsed thoroughly with clean water.

Storage:

Store in a well-ventilated place. Keep container tightly closed. Protect product from freezing.

Disposal:

Recycle and/or dispose of contents and containers in accordance with local, regional, national, and international regulations.

Shelf Life:

Up to one year from original manufacture date when stored in its original, unopened container at room temperature. May be extended with reasonable care.

Limitations:

This product is not intended for public use and is intended for use by qualified contractors and installers with proper experience and training in the use of these products, and that have read the complete safety data sheet. Apply product only when substrate and ambient temperatures are within the accepted range.

Warranty:

IMPORTANT!

Before using any Durável product, read and understand its accompanying Safety Data Sheet & Application Instructions for important safety information.

Safety Instructions:

For Professional Use Only

Keep Out of Reach of Children and Animals

May be corrosive to metals. Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation

Keep only in original container. Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray. Wash hands and arms thoroughly after handling. Do not touch eyes. Use only outdoors or in a well-ventilated area. Wear protective gloves/ protective clothing/ eye protection/ face protection. IF ON SKIN: wash with plenty of water and soap. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. Get medical help if you feel unwell. If skin irritation occurs: Get medical help. If eye irritation persists: Get medical help. Take off immediately all contaminated clothing and wash it before reuse.

Absorb spillage to prevent material damage. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Always Review SDS & Technical Data Prior to Use
