Concrete Sealers

CLEAR CONCRETE ACRYLIC SEALERS

UV-STABLE CONCRETE SEALERS

Durável clear concrete sealers protect natural, colored, stamped, and decorative concrete without hiding its color or texture. They help defend the surface against sunlight, deicing products, common stains, and everyday wear.

Advanced acrylic formulas and strong adhesion help the sealer bond securely and provide longer-lasting protection. Use Durável clear sealers to preserve the appearance of driveways, walkways, patios, porches, balconies, and other residential or commercial concrete surfaces.

CONCRETE PROTECTION

- ☑ Residential and Commercial Colored Concrete
- ☑ Stamped Concrete
- ☑ Decorative Concrete Overlays
- ☑ New Concrete and Existing Concrete Re-Sealing
- ☑ Natural Concrete Surfaces

PRODUCT BENEFITS

- ☑ UV-Stable Acrylic Protection
- ☑ Helps Resist Common Stains
- ☑ Improved Bonding for Longer-Lasting Results
- ☑ Available in Standard and Low-VOC Formulas
- ☑ Extended Protection and Service Life

DV-20™ AND DV-30™

Durável DV-20 and DV-30 High Gloss are clear concrete sealers that deepen color and create a bright, crystal-clear finish. Their pure acrylic formulas soak into concrete and decorative overlays to provide longer-lasting protection against salt, rain, acidic stains, and other damaging elements. Low-VOC 400 g/L formulas are also available.

DV-WB™

Durável DV-WB is a water-based concrete sealer that creates a clear, glossy finish with mild color enhancement. Its advanced acrylic formula bonds deeply with concrete and decorative overlays to provide longer-lasting protection against salt, rain, acidic stains, and other damaging elements.

DV-50™

Durável DV-50 is a concentrated clear sealer that allows your contractor to adjust the gloss level and strength of the finished coating to fit the project. It uses the same high-quality, crystal-clear acrylics as other Durável sealers to protect concrete against rain, salt, acidic stains, and other damaging elements.
