Durável TRO™

FIBER-REINFORCED TRAFFIC RATED OVERLAY

PRODUCT INFORMATION

Durável TRO is a heavy-duty concrete overlay designed to restore worn surfaces and repair damage caused by salt, traffic, and everyday use. Its fiber-reinforced formula provides added strength and durability for residential and commercial areas, including locations exposed to cars, trucks, and forklifts.

TRO can be used on parking lots, parking decks, loading docks, driveways, sidewalks, commercial entrances, and other horizontal concrete surfaces. Finish options include smooth, broom-textured, and decorative styles. It is available in Light Gray, Dark Gray, and White, with more than twenty additional color options. A protective sealer may be added, but it is not required for long-lasting performance.

SYSTEM ADVANTAGES

- ☑ Fiber-Reinforced for Added Strength
- ☑ Resists Heavy Wear and Abrasion
- ☑ Provides Long-Lasting Concrete Repair
- ☑ Helps Resist Freeze-Thaw Damage
- ☑ Easy, Just-Add-Water Application

COMMON APPLICATIONS

- ☑ Repair Driveways, Parking Lots, and Parking Decks
- ☑ Restore Warehouse Floors, Loading Docks, and Ramps
- ☑ Renew Broom-Textured Sidewalks and Entrances
- ☑ Repair Damaged Stairways and Steps
- ☑ Provides Lasting Performance Without a Sealer

CONCRETE REPAIR

Ice-melt products, heavy traffic, and repeated impacts can damage the surface of concrete, creating rough areas, spalls, and trip hazards. Over time, worn concrete may also become smooth and slippery. Durável TRO restores and repairs the damaged surface without the cost, mess, and downtime of removing and replacing the entire slab.

RESIDENTIAL

Durável TRO repairs worn or damaged driveways and creates a more even appearance from the curb to the garage. Resurfacing the existing concrete avoids the disruption of full removal and replacement. It also helps protect nearby landscaping, lawns, lighting, invisible fences, irrigation systems, and adjoining surfaces.

COMMERCIAL

Durável TRO combines fiber-reinforced strength with excellent resistance to heavy wear. It is durable enough for forklifts, vehicles, and other demanding commercial traffic. Use it to repair trip hazards on sidewalks and entrances or restore worn warehouse and stockroom floors to a smoother, safer surface.
